Heating jacket drum digital 200°C

This heating jacket is made as a heating blanket, manufactured with Teflon treated polyester and has a built in heating cable as heating source. The heating jacket is easy to mount with buckles and straps.

For high accuracy and easy management the heating jacket is equipped with a digital controller 0-200°C. The controller provides superior precision and includes features as ramping and timer functionality. The display shows the accurate temperature and can be set to show the temperature in both Celsius and Fahrenheit degrees.

The heating jackets are used for retaining heath and industrial heating of fats, butter, Vaseline, resins, water, oils, diesel, lubricating oils, heating oils, and other liquids stored in drums.

Insulation lid is available in our standard assortment as accessories for heating jackets.

Technical specification

Heating jacket of Teflon treated polyester
Built in insulation of polyester
Supply 230V or 110V
Digital controller 0-200°C • Timer function • Ramping function
Class IP40 (IP54 available as an option)
Adjustable buckles
Three meter connection cable

Standard range

Article number	Dimension	Power	Supply	Drum diameter	Drum dimensions
